

Ishtar - Anomalie #3148

DJANGO ADMIN: unselecting all doesn't work

07/13/2016 15:32 - Valérie-Emma Leroux

Status:	Rejeté	Start date:	07/13/2016
Priority:	Normal	Due date:	
Assignee:	Étienne Loks	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	1.0		
Difficulté:			
Description			
When selecting all elements with the checkbox on top of the list, unchecking it doesn't unselect items.			

History

#1 - 07/13/2016 15:43 - Valérie-Emma Leroux

- Target version set to 1.0

- Category set to 21

#2 - 09/05/2016 12:18 - Étienne Loks

- Status changed from Nouveau to Rejeté

Specific issue between Debian version of JQuery and the old Django version we use. Sadly this will not be fixed (upstream response will be: upgrade your version of Django).

The next version of Ishtar will not have this issue.

Hopefully Django admin pages should be rarely used in Ishtar.
